**GROUP OF COMPANIES
DIMITRIADIS S.A**

The brand name “Reign Lab” was founded in 2019 by a team of experienced people with love and dedication to the products and services that concern the photographer and his needs. USB Flash Drive has become one of the most productive means for professional photographers to transfer and/or copy large files as well as present their valuable work to their clients.

The USB Flash Drives which the company offers are USB3.0 (Super Speed) and can reach maximum transmission rate 5 Gbps (5.120 Mbps) data. There are three types of formats, NTFS/ FAT32/ exFAT making it possible to quickly copy, transfer or delete files and videos in Windows, Linux and macOS environment

They are available in capacities of 16GB, 32GB and 64GB and the retail price depends on the ordered quantity of 1 - 10 - 25 - 50 - 100 pieces. If you need more pieces, please contact the company. The combination of materials and techniques such as wood, plexiglass and artificial leather with the option of engraving or printing, can enhance the presentation of your work. Optional decorative packaging is available in different designs and materials

USB Wood

An economical solution offered by the company, is the USB flash drive with the appropriate packaging. Available in natural shade. Offered with engraving or printing.

DPW1 set

USB

Wood

White, the symbol of purity, hope and trust! Strong minimalistic and partly Scandinavian style of presentation, especially when combined with the corresponding packaging

DPW2

USB Wood

A sense of natural and simple design that, in combination with the corresponding packaging, gives a romantic and warm style to the presentation of your work

DPW3

USB Wood

Warmth and luxury...
The dark color in the wood conveys the maturing of the material and the engraving element would go perfectly in combination with a kraft packaging or wooden presentation box.

DPW4

USB

Wood

A heart... to keep the most precious moments of your life safe. The dark color on the wood conveys the maturing of the material and the element engraving would go perfectly with this particular kraft packaging .

DHEART

USB Acrylic

The combination of silver and pink metal with plexiglass gives an extremely minimalist character to your presentation with strong notes of luxury and simplicity. It is recommended to print on either plexiglass or metal.

DPA1 slim

USB
Acrylic

DPA2
slim

USB Acrylic

Simple, elegant and smooth style after the “marriage” of two very contrasting materials: natural wood and industrial plexiglass. Available in two shades: natural and dark brown. Printing on plexiglass or engraving on wood is recommended

DPA3 slim

USB
Acrylic

DPA4
slim

USB Acrylic

XL sizes!! Impressiveness and luxury combined with the mix of plexiglass and wood but in a larger size. Available in two shades: natural and dark brown. Printing on plexiglass or engraving on wood is recommended.

DPA3 thick

USB
Acrylic

*The price does not include packaging

DPA4
thick

USB Leatherette

Classic and timeless!
Available in three shades
white, black and brown.
It is recommended to
print an element on a case
with the corresponding
leatherette color
for a comprehensive
presentation of your
project.

DPL1

USB

Customized

Alternative and unique...
For photography and camera lovers. Made of durable material that offers tremendous durability and protection over time. Pair it with matching packaging to stand out.

*The price does not include packaging
